

Ventlab

# STAT CHECK™ MANUAL RESUSCITATOR

LATEX FREE | SINGLE PATIENT USE | DISPOSABLE | DEHP

The single use STAT-Check Resuscitation/Ventilation Bag comes standard with an integrated colorimetric CO<sub>2</sub> indicator for verifying CO<sub>2</sub> exchange. Available with Ventlab's signature pressure manometer and several components to create a custom resuscitation bag.

## STAT-CHECK™ MANUAL RESUSCITATOR

- Single patient use resuscitation/ventilation bag available in four sizes
- Effectively verifies CO<sub>2</sub> exchange with easy-to-read colorimetric CO<sub>2</sub> indicator
- CO<sub>2</sub> indicator is permanently housed in a dedicated port; no need to install prior to use
- Available with or without integrated pressure manometer
- Integrated color-coded pressure manometer effectively promotes proper pressure delivery (<20 cmH<sub>2</sub>O); the tri-color fields alert to the risk level of delivered pressure
- Proper pressure delivery helps reduce gastric insufflation, thus preventing vomiting, aspiration and resulting pneumonias
- Face mask proportionately sized to resuscitation bag size
- Select from a variety of components to assemble a custom resuscitation bag to meet your unique patient needs (see opposite side)

## STAT-CHECK + INTEGRATED PRESSURE MANOMETER

CAT#	SIZE	VOLUME	STROKE VOLUME	PK
SC7101	Infant	300ml	140-170ml	10
SC6101	Child	550ml	320-340ml	10
SC8101	Pediatric	1000ml	650-670ml	10
SC9101	Adult	1900ml	950-960ml	10

## STAT-CHECK STANDARD (WITHOUT PRESSURE MANOMETER)

CAT#	SIZE	VOLUME	STROKE VOLUME	PK
SC7000	Infant	300ml	140-170ml	10
SC6000	Child	550ml	320-340ml	10
SC8000	Pediatric	1000ml	650-670ml	10
SC9000	Adult	1900ml	950-960ml	10

## STAT-CHECK CO<sub>2</sub> INDICATOR (STAND ALONE PRODUCT)

CAT#	SIZE	PK
SC200	STAT-Check CO <sub>2</sub> Indicator Component	10

**Ventlab** STAT-CHECK™ COMPONENTS

**CUSTOMIZE YOUR RESUSCITATION / VENTILATION BAG**

Choose from the following components to create a custom resuscitation/ventilation bag to best meet your needs:

**SAFETY COMPONENTS**

**INTEGRATED PRESSURE MANOMETER**

Ventlab's innovative color-coded dial clearly denotes pressure delivery:

- Green** - Target pressure level <math><20\text{cmH}\_2\text{O}</math>
- Yellow** - Potentially dangerous pressure level
- Red** - Dangerous pressure level

**POP-OFF VALVES**

40cm/H<sub>2</sub>O & 25cm/H<sub>2</sub>O  
Allows clinician to use an appropriate pop-off level

**FILTERS**

A bacterial/viral filter provides effective protection for the healthcare provider during expiration

**PEEP VALVES**

Adjustable PEEP valves;  
5-20cm/H<sub>2</sub>O

**OXYGEN RESERVOIRS**

**INFLATABLE O<sub>2</sub> BAG**

Closed system oxygen reservoir delivers higher FDO<sub>2</sub> and provides visual indication of proper airflow

**CORRUGATED TUBING**

For use with secondary oxygen supply; available in 24" and 48" lengths

**CONVENIENCE COMPONENTS**

**FACE MASKS**

Inflatable and non-inflatable face masks available

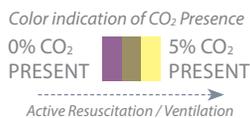

**FLEX NECK**

Removable, flexible joint allows corrugated tubing to be joined with the patient valve; also reduces the torque on ET tube

**STAT CHECK CO<sub>2</sub> INDICATOR**

The colorimetric STAT-Check CO<sub>2</sub> indicator verifies CO<sub>2</sub> exchange, and the three-color interpretation makes it easy to assess

**Every second counts!**  
A simple twist removes the cap and *immediately* activates CO<sub>2</sub> detection

The STAT-Check CO<sub>2</sub> Indicator is available as a separate component that can be added to any Ventlab brand resuscitation/ventilation bag.
